Monthly Total *	\$150	\$25	\$125

* See below for explanation of amounts used in this chart

Savings Year #1 \$1500
Savings Year #2 **\$3000**
 Savings Year #3 \$4500

ImageMaxTM Factory Direct Price ~~\$3495~~ Sale Price **\$2695**

	A/T2000®	<u>ImageMax</u>TM
Chemistry	An A/T2000 will use 6 gallons of chemistry per month (1 gallon dev & 1 gallon fix to fill, and 2 gallons of each for replenishment). High quality chemistry is \$10 - \$15 / gallon.	<u>ImageMax</u> will use just 1 quart each of dev & fix every 2 weeks. That's just 1 gallon total per month! 1 quart of <u>ImageMax</u> chemistry is \$4 each or just \$8 per change. 2 changes per month = \$16.
Cleaning	It usually takes at least an hour each month to clean an A/T2000. A professional cleaning service can charge as much as \$50 / visit to do an on-site cleaning!	<u>ImageMax</u> is virtually self-cleaning! Simply push the Drain button, then Rinse, Refill, DONE! Your staff will thank you and you'll save money!
Repairs	<i>Repair bills vary greatly – difficult to estimate, but consider that an A/T2000 transport costs over \$500, a circuit board costs well over \$1000. Labor is often over \$100 / hour! Again, it's difficult to estimate repair costs, but a safe guess might be \$25 / month.</i>	<u>ImageMax</u> has no mechanical moving parts in the chemistry to wear out - No Belts, No Rollers, No Tracks, and No Gears! <u>ImageMax</u> comes with a LIFETIME warranty! How about no more repair bills?!
Used Fixer Disposal	A/T2000 creates 3 gallons of used fixer every month! Hazardous waste pickup companies can charge \$15-50 per gallon!	At the end of 2 weeks, <u>ImageMax</u> only produces 1 quart of used fixer. That's 85% less waste! SilverMax , also from XRS, is just \$9 / month to use.

ImageMaxTM will not only SAVE YOU MONEY, but it also delivers the BEST film quality that you've ever seen!

PLUS: **ImageMax** puts an end to frustrating retakes because film is lost, poorly processed, or has annoying artifacts!

Even More Savings... Film from **XRS** is 20-50% less compared to the other guys!
